

FLEXIMOUNT 1

Strong, robust and unbelievably versatile, Fleximount I, is most suited to vehicle and large-format exterior branding applications. Quick, simple and cost-effective. An image is digitally printed onto a flexible PVC substrate with precise pockets welded around its perimeter. It is then slipped into a pre-fitted aluminium extrusion framing structure. In mere minutes, the image is evenly tensioned across the horizontal and vertical axis, to reveal a smooth flawless finish.

- Branding areas are maximised as more than three-quarters of the frame is concealed by the printed message
- A positive impression of your company and brand is created by hiding dull, unattractive and asymmetrical surfaces
- Graphics can continuously be re-used and interchanged from one site or location to another, ensuring added value to any advertising or promotional campaign.

FLEET BRANDING

Fleet-owners can now enjoy the benefits of furnishing their vehicles with an exclusive identity. Fleximount I ensures :

- the elimination of additional costs incurred in painting and refurbishing
- unsightly surface irregularities covered by smooth and striking tensioned graphics
- flexibility in changing the appearance of vehicles with speed and ease, as and when required

Strong, Durable, Reliable

Engineered to absolute precision, the Fleximount framing structure fits within half an inch of the vehicle surface. Sleek and lightweight, all measurement specifications are in compliance with international stipulations. Each component is tested for optimum strength and durability with safety performance results acknowledged by the German TUV testing facility.

BILLBOARDS, WALL SITES AND SUPER STRUCTURES

Fleximount I is extremely versatile for billboard applications. The system is exceptionally ideal for the branding of walls and super-structures that require a flush fit. High quality visuals can be flighted in one single application. No more separate sheets and messy applications.

Fleximount I is the perfect system to maximise branding opportunities, on :

- exterior walls
- shopping centres
- large wall-scapes
- curved walls
- window and door surrounds

Wherever you use it, Fleximount I will enhance your site.
